

AREVA Contaminated Refurbishment Center

Machining Services

Restoring a Heat Exchanger Gasket Surface

Contaminated machining, welding and fabrication to address all your maintenance challenges in AREVA's Contaminated Refurbishment Center

With a 20,000 ft² radiologically controlled area, AREVA's Contaminated Refurbishment Center contains hot and clean machine shops with a wide array of equipment to meet your machining, welding, and repair challenges:

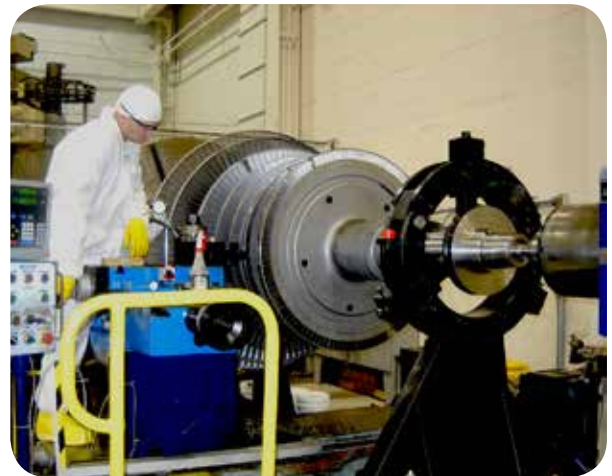

- Ability to accommodate radiologically contaminated components
- Horizontal lathe with 25 ton capacity
- Vertical lathe with 15 foot table
- Horizontal boring mill with 12 foot table
- Welding services
- Decontamination
- Blasting, cleaning
- Level 1 coatings

Features & Benefits

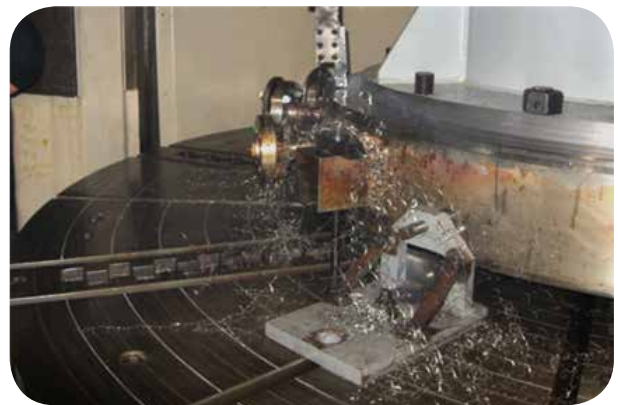

- Full in-house capabilities to perform all maintenance and repair activities
- Precision digital measuring equipment
- Experienced personnel including machinists, technicians, and NDE experts
- Robust quality control and FME programs
- Reinvigorate obsolete equipment, avoiding the expense of replacement
- Avoid costly new parts with long lead-times and modifications
- Cost-savings — costs a fraction of what a new part would cost
- Can help with emergent issues — call us 24/7/365

Machining Fit on Motor Bracket

Machining Shrouds on Turbine Blades

Restoring Casing Flatness

Our Contaminated Refurbishment Center (CRC) is your one-stop shop for contaminated machining, welding, and repair.
