

Hydramotor® Training Program

Program

As the Master Distributor for Automatic Switch Company (ASCO) nuclear products, AREVA provides comprehensive technical support, complete units and replacement parts for AH90 and NH90 Series Hydramotor actuators. The AREVA Nuclear Parts Center (NPC) has an extensive inventory for consistent rapid turnaround during scheduled repairs and emergencies. We provide 24-7 parts availability via our dedicated NPC Customer Inquiry System on the Worldwide web. In addition, the NPC is the only authorized ASCO Service Center for overhauling and repairing the AH90 and NH90 Hydramotor actuators for the nuclear industry. We offer various programs to meet individual plant requirements for servicing these units. Our Hydramotor program is part of the AREVA commitment to support the nuclear industry.

Introduction to Hydramotors

- General Description
- Configurations and Model Numbering System
- Basic Components
- General Design Specifications
- Significant Configuration Differences and Options

Operation and Maintenance (For All Styles)

- Basic Components
- Principles of Design and Operation
- Unit Storage, Check-out and Installation
- Troubleshooting Operational Problems
- Unit Disassembly and Assembly (includes hands-on work with full-sized units)
- Testing

Customized Training

AREVA customizes the training program to meet the specific needs of customers. For example, training for procurement personnel and/or system engineers can emphasize information related to design and procurement, while placing less emphasis on maintenance. Training for electrical and/or mechanical maintenance technicians could take the opposite approach.

AREVA can provide training at our Lynchburg, Va. facility. Feel free to contact us for more information about serving your current training needs.

Features and Benefits

- Parts Availability
- Service Programs to Meet Plant Requirements
- A Wide Range of Training Subjects
- Customized Training and Certification
