Turnkey Commercial Grade Dedication Services

Mounting cost pressures are causing utilities to use Commercial Grade Dedication (CGD) as a means to reduce costs. At the same time, regulatory drivers and increased oversight can increase execution and compliance costs. To address these conflicting demands, AREVA is leading the industry with turnkey CGD services that decrease utilities' risks, lower costs, improve execution efficiency and reduce lead times through economies of scale.

With more than 20 years of CGD experience, AREVA offers the best value, highest reliability and industry-leading quality in CGD services. Our CGD services are fully aligned with EPRI's latest "Guideline for the Acceptance of Commercial-Grade Items in Nuclear Safety-Related Applications" (2014) and have been noted as a strength by industry experts. In addition, in our recently expanded U.S. Technical Center, we dedicate a large number of commodity and non-commodity items.

Real Values

Outsourcing CGD services offers potential savings through:

- Reduced overhead and O&M costs
- Avoidance of costs to update existing dedication plans to comply with new EPRI guidelines
- Lower average unit price (AUP) and reduced lead times through bulk purchases and dedications

AREVA is the only NSSS provider that offers third-party CGD and is the first third-party dedicator to provide fleet-wide dedication for a U.S. nuclear utility. Therefore, we bring unrivaled experience, capabilities and depth in engineering resources to offer the highest caliber and best value in CGD services.

Through our experience, AREVA has implemented processes and procedures for continuous improvement, cost optimization and enhanced schedule performance. As a result, our customers benefit from our ability to execute efficiently from day one and to scale up rapidly to deliver the volume and quality needed.

Features and Benefits

- Decades of plant NSSS experience help customers execute operational excellence with enhanced value
- Single point of contact for sourcing, dedication and delivery
- Bulk sourcing and standardized dedication plans reduce costs and shorten lead times
- Turnkey service allows plant staff to focus on high priority and emergent issues
- 20 years of CGD experience delivers the right product, on-time, the first time
