

# Paperless Work Flow

Providing instant access to support documentation and communication with remote experts, increasing personnel efficiency

## Every Innovation Has a Mission

One of utilities' top priorities in the 21<sup>st</sup> century is securing their operational excellence. Tangible results that ensure safety, quality, performance and delivery are paramount. Your teams can count on AREVA to deliver results that:

- Reduce cost
- Reduce critical path time
- Reduce overall dose
- Increase task safety and efficiency
- Resolve emergent issues quickly
- Improve plant performance and reliability

## Paperless Work Flow

To help you reduce critical path time and dose, and increase task efficiency, the Paperless Work Flow tool provides you with instant documentation and communication of non-conforming conditions. Your outage personnel are more efficient, requiring less time in containment thus reducing overall dose.

Paperless work flow replaces cumbersome paper documentation management systems, using a tablet to maintain shift log books and to complete technical documentation and work packages. Outage personnel gain instant access to support documentation, remote expert support, cameras and RFID readers. Remote personnel have the capability to provide oversight on work as it is being performed.

## Features and Benefits

- Increases personnel efficiency
- Instantly documents and communicates non-conforming conditions
- Replaces paper documentation management
- Provides worker with instant access to support documentation, remote expert support, camera and RFID reader
- Oversight capabilities through remote viewing

## More Innovative Outage Services

- RCP Pump and Motor Shop and Services
- Engineering and Analysis
- Chemistry Lab Services
- PWR & BWR Refueling Services
- Safety-Related Machining and Coatings
- Outage Management and OCC Support
