

# You Need

a full range of services for all of your  
BWR and PWR fuel handling systems.

# We Deliver

a team of industry experts that can assess, upgrade, or replace your refueling platforms, manipulator cranes, spent fuel bridges and fuel transfer systems. Our goal is to ensure total reliability, improved safety, and optimal performance during your fuel handling operations. AREVA's Stearns Roger® Services team is here to provide you the best resources available — tailored to your specific needs.
