NUHOMS® Dry Fuel Storage

## Are You NUHOMS® Smart?

Utility executives deserve the peace of mind of a technologically-advanced used fuel storage system that has:

- Low risk
- Low dose
- Low life-cycle cost

AREVA TN's NUHOMS® dry fuel storage system is one solution that offers all of this and more:

- Unparalleled shielding properties
- Minimized risk and reduced need for plant modifications
- High seismic and tornado tolerances and superior flooding performance

No wonder the majority of U.S. nuclear power plants prefer the NUHOMS® dry fuel storage and transfer system. Smart choice!
