Used Fuel Loading ... Low Dose and Worry-Free

Nuclear plant executives deserve the peace of mind of used fuel loading services that are delivered like clockwork — safely, on time and on budget. In the past two years, AREVA TN has completed more than 70 consecutive successful loadings:

- Loaded at a consistent pace of one DSC per week
- Doses as low as 50.4 (PWR) and 200.5 (BWR)
- \$0 change orders

AREVA TN offers dedicated pool to pad teams that are highly trained and experienced. As a result you get the benefit of:

- Human performance excellence
- Tangible cost and dose savings
- Schedule certainty

That's what you deserve and that's what we deliver ... "as promised" ... another smart solution from AREVA TN.
